Professional Summary

I am graduate bachelor of Taras Shevchenko KNU, Faculty of Mathematics and Mechanics,
Professional qualification: Statistician, mathematical. I like math and programming. This is the reason why i'm learning data science and big data.

Work Experience

- Kaggle competitions 6 months (10+ competitions)
- 3 freelance projects (Python) on Fiverr 4 months
- Project analyzing 1 year

Aslo experience of analizing projects for investing (20+ projects)

Education

08/2015 - 05/2019

Taras Shevchenko National University of Kyiv
Faculty of Mathematics and Mathematics, specialty - mathematics actuarial.

Languages

English   — B2

Skills

- Theoretical knowledge of mathematical statistics, probability theory (regression analysis, time series analysis, cluster analysis)
- Theoretical and practical understanding of machine learning methods (regression, classification, clustering)
- Python(pandas, numpy, sklearn, matplotlib, seaborn)
- SQL
- NoSQL (minimal knowledge)

Courses

- 'Data Analysis with Python'
- Data Analysis and basics of maching learning with Python.

- 'Machine Learning' from Standford University (Coursera)
- 'IBM Data Science Professional Certificate' from IBM (Coursera)
- 'Введение в машинное обучение' from Yandex School of Data Analysis (Coursera)
- 'SQL for Data Science' from University of California (Coursera)
- 'mlcourse.ai' (Хабр / www.mlcourse.ai)
